*No lesson is so important  
and no task so urgent that  
we can not take the time  
to teach, learn and  
practice science safely!*

This intensive seminar includes training in **regulatory compliance, inventory control, hazardous waste disposal** and the **habits of safe behavior and performance**. Topics include: the 3 C's of safety, scope of the problem, accidents, legal aspects, emergency planning, chemical handling, chemical storage, biological and animal hazards, eye and face protection, chemical disposal, electrical safety, safety program planning and "your most serious problem".

This seminar is intended for elementary and secondary school **science, art and technology teachers, supervisors, and curriculum specialists**.

Participants will receive the resources needed to **understand the fundamentals of lab safety** and to **develop or improve their lab safety program**. You will learn simple, inexpensive (even free) things that you can do to have an even better lab safety program.

**Registration is FREE!!!!!!**

This workshop is funded by a grant from the  
Massachusetts Department of Industrial Accidents  
*Please note attendees must be covered by Massachusetts' Workers Compensation.*

The Laboratory Safety Institute (LSI) is the nation's only not-for-profit educational organization dedicated to safety in science education. LSI has been providing highly informative and entertaining training and resources for educators for nearly 30 years.
